## CAREER OBJECTIVE

Aspiring Software Development Engineer (SDE) with a strong foundation in Data Structures, Algorithms, and Full-Stack Development. Proficient in MERN stack (MongoDB, Express.js, React, Node.js), C++, JavaScript, and SQL. Passionate about building scalable applications and solving complex problems.

## EDUCATION

- **Bachelor of Technology in Computer Science and Engineering** 2021 - 2025  
*Chhatrapati Shahu Ji Maharaj University, Kanpur, Uttar Pradesh* 6.89 CGPA

## EXPERIENCE

- **INDSAC SOFTECH, Bengaluru, Karnataka** | *Software Developer Intern - Remote* 03/2025 - Present
  - Developing and optimizing web applications using modern technologies.
  - Collaborating with the development team to enhance performance and functionality.
  - Writing clean, maintainable code and participating in code reviews.
  - Assisting in debugging, testing, and deploying software solutions.

## PERSONAL PROJECTS

- **UIET CONNECT - Student and Teacher Portal** | *MERN Stack* 🌐
  - Built a teacher-student portal with role-based access (Admin, Teacher, Student).
  - Developed attendance management, exam scheduling, notices, and assignments features.
  - Enabled admin functionalities for registering students and teachers.
  - Technologies used: MongoDB, Express.js, React Js, Node.js
- **E-Commerce Website** | *HTML, CSS, JavaScript* 🌐
  - Revamped an e-commerce website with HTML, CSS, and JavaScript, resulting in a seamless shopping experience; achieved a 25% reduction in cart abandonment rates, enhancing load times by 50%.
  - Implemented interactive features such as product galleries, shopping carts, and secure checkout processes to streamline customer interactions.
  - Optimized website performance through efficient coding practices, resulting in improved load times.
- **Vehicle Parking System** | *HTML, CSS, JavaScript, MySQL, PHP* 🌐
  - Developed a vehicle parking system which allows users to check parking availability, issue tickets. Increased user efficiency by 30% and reduced waiting time by 25%.
  - Designed the user interface for easy navigation, improving user satisfaction by 40% .
  - Overcome challenges such as database optimization for improved performance, resulting in a 50% faster query response time.

## SKILLS SUMMARY

- **Programming Languages:** C, C++, SQL, JavaScript
- **Frontend Technologies:** HTML, CSS, JavaScript, Bootstrap, ReactJS, Tailwind CSS, Material UI
- **Backend & Databases:** Node.js, Express.js, MongoDB, Firebase, MySQL
- **Developer Tools & Platforms:** Visual Studio Code, Git/GitHub, XAMPP
- **Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS)
- **Soft Skills :** Public Speaking, Logical Thinking, Problem-Solving, Active Listening, Team Collaboration

## ACHIEVEMENTS AND ACTIVITIES

- **Contests :** Attended 15+ Coding contests on programming platforms like Codechef, GeekForGeeks, LeetCode etc.
- **Problems Solved :** Solved 1500 coding Questions across different coding platforms - ***View***
- **HackerRank :** Gold badge with 5 star in C++ - ***Profile***
- **Certificates :** HTML, CSS, React, SQL, JAVA - HackerRank - ***View***
